Hello all:

By this email I am amending my Stop Work Conference Order for MC-2015-68-02 written September 16, 2015.

The Division met with Dan Lockwood and Matt Brahana this afternoon and have also inspected the Pine Ridge site several times since I wrote the order, including two days ago. Progress has been made in reclamation of the site and Mr. Lockwood expects to have a good deal more done by next Friday, November 13, 2015. He has also provided \$10,000 in bond, interim map updates of the work he has done, the Weed Management Plan, and required changes to the NOI.

Mr. Mike Bradley, Project Lead for the Division will inspect the site on Friday, November 13, 2016 to see if the remaining \$10,000 asked for on September 16 is still needed, or if enough reclamation has been done to bring the bond in line with the \$68,750 held as of now by the Division.

Pine Ridge may continue operations as described in the September 16 order until November 17, 2015 at 5:00 pm. The Division will let Mr. Lockwood know by Monday, November 16 what, if any additional bond will be required. We will also expect an up-to date map by Friday, November 13 showing what has been reclaimed as of that date.

On November 17, the Division will update all parties to this email.

Please let me know if you have questions.

Thanks,
Dana
